Alexandria University (Expected Jan. 2021)

B.S. in Computer and Communication Engineering. Concentration in Software Engineering.

EXPERIENCES

Microsoft (Bing)

SWE Intern (July - Sep. 2019)

ACM SC (Sep. 2019) JavaScript Instructor

SRTA City (Feb. 2019) Web Developer Intern

IEEE SC (Feb. 2019) Web Developer Instructor

- Automated "Bing-Tries" generation in an internal project's pipeline.
- Automated configuration file git commit using "Azure Functions".
- Migrated monolithic service to "Azure Service Fabric" architecture.

Introduced candidates to JS frameworks (Node.js and Vue.js), using real examples and multiple projects, through 3 intensive sessions.

- Refactored PI-Floor web app to fully testable and scalable version.
- Added multiple new features (drag file upload, scoreboard, messages filter...etc.)

Guided 16 candidates to learn web development basics, and make their own websites, through 6 intensive sessions.
